

## ROLLERBALL sorters

### KEY FEATURES

- ⌘ Ideal for sortation of varying sized products
- ⌘ Low cost automated parcel sortation system
- ⌘ Easy to maintain
- ⌘ Low noise level
- ⌘ Sort up to 2,700 parcels per hour
- ⌘ Modular design, so the system is easily configured to handle from 2 to 120 sort points, and can change as your sortation needs change

	MIN	MAX
Length	3.5"	22"
Width	3"	20"
Height	1/4"	18"
Weight	0.1 lbs	50 lbs

\*Note: Requirements based on standard RollerBall Sorter. Larger units are available through special order.

Tackle your parcel processing challenges with the modular, configurable RollerBall® system from Advanced Technology & Research Corporation.

Whether you are looking to minimize shipping costs, reduce labor, increase your throughput or improve traceability and accuracy, we can put together a RollerBall configuration to help meet your goals.
